

Influencer's guide to making big bucks with the Franktrax network

1. Register for a free publisher account at Franktrax.Network.

- 1.2. After your Franktrax account is approved, go to the [LP Rotator](#) page.

The screenshot shows the Franktrax user interface. At the top left is the Franktrax logo. A search bar and a 'Logout' link are at the top right. A dark blue sidebar on the left contains navigation options: Dashboard, Offers, Reports, Tools, Vault, LP Rotator (highlighted with a red box and a '1.'), Vault, Help, and My Account. Below the sidebar, the account manager's name 'Cristina Getova' and profile picture are visible, along with the email 'support@franktrax.net'. The main content area is titled 'LP Rotator' and contains the instruction: 'Click "Generate" below, to get your templates code.' Below this instruction, a text input field labeled 'Widget Name' is highlighted with a red box and a '2.'. Below the input field is a 'Generate' button, also highlighted with a red box and a '3.'. At the bottom of the main area is a large grey rectangular placeholder and a 'Copy Widget Code' button.

- 1.3. Generate your widget code by filling in a name in (it can be whatever you want) and clicking on the button.
- 1.4. Copy your widget code by clicking on the button and save in in a convenient location in your phone/pc. You will need this code for your blogger account.

2. Create your blog at blogger.com

- 2.2. Choose a title for your blog. It can be anything you want.

- 2.4. Choose your display name. Not really necessary for our purposes so you can also type anything you want.
- 2.5. Click on “Theme” in the left menu and on the pointing arrow in the right:

- 2.6. Select “Switch to first generation Classic theme”. On the next popup click on “Switch without a Backup”.

- 2.9. Paste the widget code you got from your [Franktrax account](#) in point 1.4. above, and click on the  icon in the right upper corner of the page.

3. Add your blogger link to your Instagram bio with a piece of text encouraging your followers to click on the link. By default, you will be promoting dating sites (because this works best), so mentioning “Dating” and “Free Registration” will target visitors that are interested in dating which in turn will increase your profits. If by any reason you don’t want to promote dating sites or you don’t think they will be suitable content for your followers, just talk to your affiliate manager at Franktrax and we will find and provide you with whatever you need.

4. At least once a day mention your bio and encourage your followers to visit the link in your bio in your regular posts. This will increase your profits. Your visitors only need to submit their email address for you to make money. You can get up to \$12 per free signup (just email address). So as many visitors you can attract to the link, the more profits you will make.

5. If you have any questions or issues proceeding with this guide, do not hesitate to ask us for help. We will do everything we can to monetize your visitors in the best and most profitable way possible. Our publishers are generating \$100-\$200 daily profits with audiences of 50,000 – 100,000 followers. It depends on different things such as audience activity, relevance, geographical location, and others, so nothing is sure, however there is no better way to optimize (get the most profit out of every visitor) than Franktrax. We have been doing that for 8 years and we have perfected an optimization algorithm like no other. Here is some company information in case you need it: www.Franktrax.Network and here you can check out reviews by our publishers: AffPaying.com.
